Requirements for Client Access to NexGen BSI Engage Inventory Management

To provide your organization with access to NexGen BSI Engage, please complete the following information on the Client Access and Permission Form below.

Main Client Contact

Please designate a primary point of contact who will submit the list of team members requiring access to your specimens. This person should be an authorized representative who can assign permission levels for team members who will be using NexGen BSI Engage.

Required Information Per User

For each team member who needs access, include First Name, Last Name, Email Address. Once we receive the names on the form, a NexGen associate will send login information for each team member to the authorized representative.

User Permissions

Each user will be assigned specific study permissions. When submitting user requests, please indicate whether the user should have view-only access or specify which permissions apply.

Available permission levels include:

- Full Access – Includes permission to view and submit requisitions and shipments
- Submit Requisitions Only
- Submit Shipments Only
- View Specimens Only

A user may be granted any single permission or all permissions as needed.
